Join up with the Lanark County Camera Club and meet with others who share your interests.

About the Lanark County Camera Club

Our purpose is:

1. To provide an opportunity for photographers to meet and exchange ideas and information.
2. To encourage members to develop photographic skills.
3. To promote photography as an art form.

Membership is open to anyone interested in the art and craft of photography on payment of the annual dues, currently \$30 single, \$50 family, \$20 student.

Regular Club Meetings are held at 7:00PM on the 4th Tuesday of each month September through June, at Algonquin College, Perth.

Email Notices outlining coming events are sent to all members advising of guest speaker/topic or workshop and a monthly photo theme.

Members' Showcase is an opportunity to expose your best photo, according to the theme of the month. This is a great chance for some constructive feedback.

The website provides the latest info and a place to contribute to the members' photo gallery and information blog.

LANARK COUNTY CAMERA CLUB

**Meets 4th Tuesday
September - June
7:00 PM
Algonquin College
Perth**

New members are always welcomed. Here are some of the activities you can enjoy with a group of people who all have one thing in common - their love of creating images photographically.

Regular Meetings:

On the fourth Tuesday of every month, the regular meeting is formatted to provide an entertaining and instructive program. The program includes:

- guest speakers,
- member profiles,
- monthly image theme,
- constructive critiquing,

as well as special slideshow presentations and hands-on learning experiences.

Guest Speakers:

The club invites a variety of guest speakers to present at the regular meetings. These presentations provide members great sources of inspiration, technical expertise and additional motivation. Past speakers have included local artists, professional photographers and industry experts.

Applied Photography SIG:

The goal for this special interest group is to cover the basics of good and interesting photography, how to get the most or more out of your camera and to expand your photographic skills using a

combination of instruction and hands on experience. We encourage participation with the sharing of images, ideas and experiences.

Meetings are held on the first Tuesday of the month, September to June.

Digital Directions SIG:

The newly redefined Digital Directions special interest group goes beyond using the computer as a tool - Lightroom (Adobe's photography program), Photoshop (Adobe's graphics program) and ProShow Gold/Producer (the slideshow program) to explore with our cameras topics such as painting with light, indoor-lighting, outdoor-lighting and a host of other advanced techniques. There'll be lots of opportunity for hands-on learning. This remains a SIG for those wanting to go well beyond the basics. Members meet on the second Tuesday of the month, September to June.

Scavenger Hunt:

The scavenger hunt has become a popular annual event held in the spirit of good fun. Participants are asked to acquire images from a variety of categories reflective of the season's topics and submit their best three images for exhibition to fellow members, friends and family at the final meeting of the season.

Field Trips:

One of the highlights of any Camera Club activities is field trips. Recent field trips have been outdoor oriented as well as studio based. Always popular, these events offer a great opportunity for practical experience and some great camaraderie with a group of like minded friends.

Come on out and join the fun!

Unlike many camera clubs, the LCCC distinguishes itself with its lack of competitions and its non-competitive atmosphere. We support novices and new talent and urge members to shoot for their own pleasure, providing help when requested and a constructive milieu in which to learn.
